EDUCATION

Master of Science in Cyber Security

Aug 2025 - May 2027

University of Dubai | Dubai, UAE

- GPA: 3.78 / 4.00 | Thesis: "Enhancing Image Forensics using Deep Learning, Watermarking and XAI" (in progress)
- Awarded 15% tuition scholarship for academic excellence in undergraduate studies.

Bachelor of Science in Information Technology

Aug 2021 - Apr 2024

Sadakathullah Appa College | Tamil Nadu, India

- CGPA: 8.67 / 10.0 | First Class with Distinction.
- Ranked 1st among all IT majors and recognized during the 54th College Day for academic excellence.

INTERNSHIPS

UI/UX Designer Intern

Apr 2022 - May 2022

Alpha Business Solutions | Onsite | Tirunelveli, India

- Designed an e-commerce clothing application in Figma, focusing on user-centered design principles.
- Built interactive prototypes with animations to improve usability and visual engagement before development handoff.

Data Scientist Intern

Jan 2022 - Feb 2022

CognoRise InfoTech | Remote | Chennai, India

- Analyzed large retail datasets to identify revenue trends, customer preferences, to support data-driven business decisions.
- Developed visual dashboards to transform raw data into actionable insights for non-technical stakeholders.

PROJECTS

Trader Performance Analysis Using Bitcoin Fear & Greed Sentiment | [GitHub](#)

Jun 2026 - Present

- Analyzed 211K+ cryptocurrency trading records and Bitcoin Fear and Greed data to evaluate trade performance across market sentiment conditions.
- Explored sentiment-driven trading patterns through profitability analysis, coin performance comparison and trader segmentation using K-Means clustering.
- Built an interactive streamlit dashboard to visualize market sentiment trends, trader behavior and key trading insights.

Phishing URL Detection using Weighted Voting Ensemble | [GitHub](#)

Jan 2026 - May 2026

University of Dubai | Conference Publication in Progress

- Built a real-time phishing detection system achieving 97.21% accuracy using an ensemble of XGBoost, LightGBM, and Cat Boost.
- Engineered an ML pipeline leveraging URL, DNS, WHOIS, domain, and web-response features for robust classification.
- Deployed a streamlit web application enabling live phishing risk assessment and feature visualization.

Mulaaane Clothing App | [Figma](#)

- Designed an innovative prototype of a modern clothing app using Figma, showcasing current fashion trends to attract stakeholders and improve user engagement.

Real-Time Facial Recognition Attendance System

Dec 2023 - Mar 2024

Sadakathullah Appa College | Final Year Project

- Developed a deep learning facial recognition model (InsightFace / buffalo_sc) achieving 95% accuracy.
- Integrated Redis database to reduce data retrieval latency by 40%, improving system scalability.
- Delivered a real-time Streamlit dashboard for automated attendance logging and monitoring.

RESEARCH PUBLICATIONS

A Review of Digital Image Forensics using Deep Learning and Watermarking Techniques

Feb 2026 - May 2026 | Submitted to ASET 2026 International Conference

- Reviewed CNN, Transformer, and feature fusion models for passive and active digital image forgery detection.

- Proposed an adaptive hybrid forensic framework integrating CNN-based detection, watermark authentication, and Explainable AI (XAI).

AI-Driven Multi-Layer Security Framework for Smart Healthcare Cyber-Physical Systems

Feb 2026 - May 2026 | Submitted to ASET 2026 International Conference

- Explored threats in smart healthcare CPS and proposed a conceptual AI-based multi-layer security framework integrating edge-based AI monitoring, federated learning, blockchain, Explainable AI, and Zero Trust strategies to address cross layer attacks.

CYBERSECURITY WRITEUPS

- Published write-ups on GitHub covering enumeration, reconnaissance, privilege escalation, and exploitation.

TECHNICAL SKILLS

Languages	Python, Bash, PowerShell, HTML, CSS, SQL
ML	Scikit-learn, Pandas, Numpy, Matplotlib, Seaborn, OpenCV, InsightFace, Streamlit
Networking	TCP/IP, OSI, Troubleshooting, DNS, SMB, FTP, SSH.
Security Tools	Nmap, Wireshark, Burp Suite, Metasploit, Proverif
Web Security Vuln	Access control, Path traversal, authentication, Info Disclosure, Business logic
Frameworks & Standards	MITRE ATLAS, OWASP Top 10, ISO/IEC 27001, ISO/IEC 42001, ISO/IEC 23894
Operating system	Kali Linux, Parrot, Windows
Hands-on platforms	Tryhackme, PortSwigger.
Dev Tools	GitHub, Anaconda, Spyder, Android Studio, Figma, Redis

CERTIFICATIONS

- AI Engineer (In-progress)
- Advanced Penetration Testing (APT) and Certified Ethical Hacking (CEH) , Red Team Academy (In-progress)
- Penetration Testing, Threat Hunting and Cryptography
- Python for Data Science
- Certificate in Hardware and Networking
- Face recognition app using python

LANGUAGES

- English – Advanced.
- Tamil – Native.
